

## Invitation for Bids

Date: 14 November, 2014

Loan No.: 2655-GEO: Sustainable Urban and Transport Investment Program – Tranche 1

Contract No. and Title: Re-Bidding: P42414-SUTIP1-ICB-1.05-1: Construction Works Of the *Extension of Tbilisi Metro Line 2 and creation of University station*

Deadline for Submission of Bids: 23 January, 2015, 15:00 hours (local Georgian time)

1. The Government of Georgia has received financing from the Asian Development Bank (ADB) towards the cost of r Sustainable Urban Transport Investment Program – Tranche 1. Part of this financing will be used for payments under contract for Construction Works of the *Extension of Tbilisi Metro Line 2 and creation of University station*. Bidding is open to Bidders from eligible source countries of the ADB.

2. The Municipal Development Fund of Georgia (MDF) (hereinafter referred to as the "Employer") invites sealed bids from eligible bidders who can demonstrate that they satisfy defined qualification criteria for the Construction Works of the *Extension of Tbilisi Metro Line 2 and creation of University station*.

General features of the extension of Tbilisi Metro Line 2 are as follows:

The 2,6 km-long Metro Extension, from Delisi Station to University Station, consists of the following:

- Delisi Station (total length 131 m, P.K. 56+00)
- Scissor crossing and parking tracks after the platform (total length 285 m)
- 760m-long twin tunnels between Delisi and Vazha Phshavela stations.
- Vazha Pshavela Station (total length 205m, P.K. 68+00).
- 760m-long twin tunnels between Vazha Phshavela and University stations, including ventilation Shaft n.50, the by-pass galleries from the shaft to the main tunnels and a pump sump.
- University Station (total length 162m, P.K. 78+20), with the sub-station and other technical rooms.
- In the University station, it will be designed a 110 meter platform with an access by a hall located at the intersection of Vazha Phshavela Avenue and Sandro Euli Street.
- This hall is located at elevation 535 and the platforms at 487, so that descend 53 meters.
- 315m-long section after University Station consisting of a crossover Tg 0,11, parking tracks, a service gallery connecting the station and the crossover, the ventilation Shaft n.51 and a pump sump.

Among the works to be carried out in the tunnel, are included the execution of the superstructure, electrification, signaling and communications.

The implementation period of the contract is: 21 months.

3. International competitive bidding will be conducted in accordance with ADB's single-stage, two-envelope procedure and is open to all Bidders from eligible source countries. Only eligible Bidders with the following key qualifications should participate in this bidding

- **Contracts of Similar Size and Nature:** Participation in at least two contracts that has been successfully or substantially completed within the last **5 (five)** years and that are similar to the proposed works, where the value of the Bidder's participation exceeds **US\$ 39.36 million (Thirty nine million three hundred sixty thousand)**.

- **Average Annual Construction Turnover:** Minimum average annual construction turnover of **US\$ 56.23 million (fifty six million two hundred thirty thousand)** calculated as total certified payments received for contracts in progress or completed, within the last **3 (three)** years.
